

The Spice Solar L Foot connects securely to the side of each Spice Certified module. L Foot can be attached to a variety of roof mounts, including flashings, standoffs and tile hooks. Thick base of L Foot resists high pry forces, and side ridges engage with matching ridges on module frame for added vertical strength.

1. Base slot provides 1" of N-S roof adjustability
2. Drop-in slot provides 1-1/2" of vertical array adjustability
3. T-bolt grounds to module
4. Flange nut grounds to L Foot

Product Specifications

Materials	aluminum L Foot, stainless steel T bolt and flange nut
Finish	black, silver
Weight	4 lbs per 10 pack
Warranty	3 year surface, 10 year defect
